

Yesterday's Servers and Dinosaurs...

they're big, they're slow, and they're eating your lunch!

John,
time to bury them forever with specially priced
IBM xSeries[®] server consolidation solutions.

Your servers may not be fossils yet, but maintaining them will still eat your profits...and productivity...**alive!**

Consolidate now with IBM xSeries servers from Enterico

Only Enterico has scoured the earth to dig up the most affordable, scalable server solutions on the planet. Powerful, scalable, redundant systems that expand on demand and protect your IT investments are available now only through our offering of IBM xSeries servers!

Consolidate and Dominate your IT terrain with xSeries servers

Enterico helps you take charge of today's dynamic business landscape. The benefits of consolidating on the xSeries servers from IBM begin with excellent price/performance. With Intel® Xeon™ MP processors, xSeries servers also provide maximum availability and let you XpandOnDemand™, protecting your valuable IT investment. Get ready to consolidate with Enterico solutions that put you ahead of the pack!

Run faster, farther and better for less

Your Enterico experience starts with highly affordable, top-performing solutions. We'll help you enhance your existing 32-bit investments while readying you for 64-bit apps. Xtended Design Architecture® on IBM xSeries gives you improved performance with faster I/O, external applications scalability and lower maintenance costs. Plus, you'll get improved flexibility with internal scalability.

Guard your territory with maximum investment protection

Enterico ensures that your IT investments are protected. That's why we bring you fully scalable IBM xSeries servers. With "Pay-as-you-Grow" upgrades and 32/64-bit compatibility, you can expand-on-demand while staying on the cutting edge of server performance.

Eat your competition... not your budgets

Enterico helps you outrun, outpace and outperform your competition...lowering your short- and long-term costs through consolidation. At the same time, you'll improve performance and reduce maintenance, freeing resources to focus on strategic initiatives. Consolidate on IBM xSeries servers with Intel Xeon MP processors. You'll benefit from pay-as-you-grow scalability and comprehensive remote management while protecting your investment and your budgets!

IBM xSeries server solutions to satisfy even the biggest appetites

Meat Eaters

IBM xSeries 445 8-Way Server

Bone Crunchers

IBM BladeCenter Chassis with HS40 Blade Server

IBM xSeries 365, 4-way, 3U, rack-dense server for on-demand enterprise applications

Get leading price/performance and investment protection supporting up to four Intel Xeon Processors MP to drive mission-critical applications.

- ◆ 4-way xSeries 365 includes 4 Intel Xeon 2.7GHz/400MHz processors each with 2MB L3 cache; 6GB memory (PC2100 CL2.5 ECC DDR SDRAM RDIMM); 2 x 950W power supply; IBM ServeRAID 6i+ Controller; internal storage (RAID 5) 6 x 36.4GB Ultra320 SCSI HS SL hard drives (10k rpm); NetXtreme 1000 T Ethernet adapter (copper) and three year limited onsite warranty—uplifted to 24x7x4 (four hour response)¹.

IBM xSeries 445 8-way Server, scales up to 16-way with the Intel Xeon Processor MP

High performance, flexible partitioning and high availability for server consolidation and database applications.

- ◆ 8-way xSeries 445 includes 8 Intel Xeon 2.7GHz/400MHz processors each with 2MB L3 cache; 8GB memory (PC2100 CL2.5 ECC DDR SDRAM RDIMM); 2 x 1200W power supplies; xSeries SMB expansion module; internal storage (RAID 1) 2 x 36.4GB Ultra320 SCSI HS SL hard drive (10k rpm); NetXtreme 1000 T Dual Port Ethernet Adapter; and three year limited onsite warranty—uplifted to 24x7x4 (four hour response)¹.

The IBM BladeCenter, HS40, 4-way Intel, processor-based blade server and HS20 2-way blade server

Bring on your commerce, database and ERP/CRM applications! These powerful servers deliver uncompromised performance for your mission-critical applications requiring high performance and scalability.

HS40 4-way blade server

- ◆ 4 x Intel Xeon 2.7GHz/400MHz processors MP each with 2MB L3 cache; 4GB memory (PC2100 CL2.5 ECC DDR SDRAM RDIMM); external storage (RAID 1); 1 x BladeCenter SCSI storage expansion unit; 2 x 36.4GB Ultra320 SCSI HS SL (10k-rpm) hard drives; three year limited onsite warranty—uplifted to 24x7x4 (four hour response time)¹.

HS20 2-way blade server

- ◆ 2 x 3.6GHz/800MHz Intel Xeon EM64T processors each with 1MB L2 cache; 2 x 512MB memory plus 2 x 1GB (PC2-3200, ECC DDR2 SDRAM RDIMM); internal storage 2 x IBM 36.4GB SFF non-hot-swap U320 SCSI hard drives; and three year limited onsite warranty—uplifted to 24x7x4 (four hour response time)¹.

IBM BladeCenter chassis

- ◆ 2 x 2000 power supplies and 2 x 4-port Gigabit ethernet switch modules.

Fibre components available for additional price.
